* (Babka's throw went completely over the running track and some six feet past into a small ditch. Initially measured at 201' [making him the first person to break the 200' barrier in the discus], the throw was re-calculated by officials [allowing for the drop of about two feet & the descending trajectory] to 198' 10".)

* - Decathlon pts based on scoring tables of the year at the time of competition.
